

Von Morris Introduces a New Interior Mortise Lock (IML)

9100/9101

Adjustable front for beveled doors.

Hub adjustment moved from back to front and simplified to a single screw.

Spring adjustment with increased range. Softer springing for smaller knobs. Much stiffer springing for large levers.

Field reversible latch bolt

Improved deadbolt for smoother and more consistent operation.

Zinc plated case, coated with electrophoretic lacquer for increased corrosion resistance.

Adjustable hub with 20 degree rotation for full latch retraction. Two way rotation of hub enables lever high or lever low installations.

Improved cam discs with more defined detent positions for better feel.

Smooth case sides. Allows for easier mortising and installation.

New Suggested Retail Prices:

Item #	Description	605	605E	Standard	Distressed	Custom Finish
9100	Interior Mortise Lock Privacy w/o Function Kit	\$145.00	\$180.00	\$155.50	\$169.50	Inquire
